

EXERCISE – 7 : WORKING WITH SELECTION TOOLS-II

Task : Separate the shapes from the background and move each to a different layer

Open file	Open file ICONS.PSD in Photoshop
Selection : Star	Use Polygonal Lasso for the white star
Move to separate layer	Choose Layer > New > Layer via cut. Rename layer as “Star”
Selection : Square	Use Polygonal Lasso for the golden square. Subtract the hole from selection.
Move to separate layer	Move to new layer using Layer via cut. Rename layer as “Square”
Selection : Polygon	Use Polygonal Lasso for the brown polygon.
Move to separate layer	Move to new layer using Layer via cut. Rename layer as “Polygon”
Selection : Curve	Use Pen tool to select the blue curve.
Move to separate layer	Move to new layer using Layer via cut. Rename layer as “Curve”
Selection : Circle	Use Paintbrush with 9-pixel hard brush (row 1 column 4).
Foreground color	Choose Black as foreground color (default)
Add Quick Mask	Click Edit in Quick Mask Mode button. Add a mask by painting inside the circle.
Subtract Quick Mask	Choose White as foreground color. Subtract mask at outside edges of circle if necessary
Move to separate layer	Return to Standard Editing mode. Move selection to new layer. Rename layer as “Circle”.
Selection : Text	Use Magic Wand to select text icons.
Move to separate layer	Move to new layer using Layer via cut. Rename layer as “Text”
Layer visibility	Switch off the Background layer
Save file	Save as TASK7.PSD and TASK7.JPG
